| Resolution / Sensor | 13MP                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Description         | A 13MP Sony sensor with 4K at 30 fps and 1080P at 60 fps recording through an auto-focus lens. A3 capture area with 3.9" macro support and a multi-joint folding design that stores flat. Built-in LED lighting improves dark scenes, dual noise-reducing microphones handle audio, and image inversion is supported. Ships with VisualCam (annotation, split-screen, picture-in-picture, interactive whiteboard) for Windows and macOS, working with Zoom, Teams, Meet, Skype and more. |

Series highlights

- **Authorized VIISAN distributor**  
VIISAN-branded products; Spedal handles channel supply, commercial support and after-sales in every market outside Europe
- **A2/A3 in one pass**  
The S21 covers up to 594 × 420 mm, capturing a full book spread, drawing or folder in one shot with no stitching
- **Up to 26MP imaging**  
A 26MP (5888 × 4522) sensor with built-in LED lighting keeps fine print and drawings sharp
- **Smart image processing**  
Automatic page flattening, fingerprint removal, edge repair, background cleanup and dual-page splitting remove manual retouching
